Practical vs Theory

The Course

This is an introductory-level course that is designed to allow students interested in a career in the land-based sector to develop the confidence and skills they will need whilst studying. It makes the best possible use of the colleges outstanding facilities and is a mixture of Horticulture, Engineering, Agriculture and Countryside studies.

What You Will Study

- > Safe and effective working practices
- > Transportation of supplies
- > Maintenance of structures and surfaces
- > Maintenance of equipment
- > Planting and establishing plants
- > Habitat management work
- > Animal care
- > Work experience and employability skills
- > English and Maths, as required

Entry Requirements

You will need a full Entry Level 3 qualification, or equivalent, as well as 3 GCSEs at grades 1-2, including Maths and English. A passion for the subject and one satisfactory reference are also required.

Time Required on Campus

You will normally be in college three days a week.

Clothing, Equipment and Additional Costs

- > A pair of strong sturdy safety boots (with steel toe-caps)

- > One pair of college-branded overalls - preferably made of cotton
- > Waterproof coveralls
- > Wellington boots
- > Folder with dividers to organise your work and assignments
- > Stationery including notepad for use in class, pens and pencils
- > Optional: High-visibility bib

Progression

You will be able to progress to the Level 2 in Agriculture.

Careers

Work in a wide variety of roles in land-based engineering, on an arable and livestock farm, with animals in sanctuaries and wildlife centres, in environmental conservation and horticulture.
