Agriculture	Short Course	Weekday	2 days	Various

## The Course

This course is designed for spray operators and pest control technicians who wish to apply slug pellets and granular pesticides. Upon successful completion of this course candidates will receive an NPTC Level Two Award in the Safe Use of Pesticides - Granular Application PA4. This qualification is issued for life, however NPTC recommend that refresher training is carried out every three to four years. This course can be delivered at the college or on your own site, using your own equipment ensuring your employees are trained in the environment they are most familiar with and at a time that best suits you.

## What You Will Study

- > Safe driving practice
- > Preparation of prime mover
- > Identification and selection of calibration techniques
